CARE AND CLEANING INSTRUCTIONS

Clean using warm water and a clean soft cloth, sponge or Mr. Clean® Magic Eraser®. Non-abrasive cleaners such as Bar Keepers Friend® or Soft Scrub® and detergents can also be used. Hard water, calcium and lime deposits can be removed with a 1:1 water and white vinegar solution and rinsing after 20 minutes. To restore color luster and extend the time between cleanings apply mineral oil or a commercial product such as Weiman® Granite Cleaner & Polish. Staining liquids such as wine, juice, and dyes should be rinsed off as soon as possible. Do not use abrasive cleaners, metal-scouring pads, bleach, ammonia, or other alkali cleaners.
